Mr. Tom Heiss
Advanced Protective Products, Inc.
187 Warren Street
Jersey City, NJ 07302

Dear Mr. Heiss:

Confirming your telephone conversation of November 7, 1989 with Mr. Jordan (MSCHQ), your product "Rust Destroyer" is hereby approved for compromised surface service aboard MSC ships. This approval is based upon successful performance to date in general touch-up and repair usage of Rust Destroyer aboard USNS VEGA and an engine room bilge test patch aboard USNS KAWISHIW1.

For your information, enclosed is a copy of the MSC approval procedures should you desire to seek approval for other areas of shipboard service (such as topsides, cargo tanks, etc).

MSC reserves the right to revoke this approval if it is determined that your product is not performing satisfactorily.

The MSC point of contact for this matter is Thomas Jordan at (202) 433-0262.

Sincerely,

T.G. Connors
Acting Engineering Officer
